

What is PARCC? Partnership for Assessment of Readiness for College & Careers is a computer-based assessment program that provides student assessment in English Language Arts/Literacy and Math. These assessments are linked to Common Core Standards.

What about MCAS? The PARCC assessments will replace state ELA & Math tests currently being used to meet the requirements of the Federal Elementary and Secondary Education Act (MCAS).

Grade 8 students will take the Science Technology & Engineering MCAS test.

Thursday, February 5*
6:00 p.m.
Reid Auditorium
